EXPERIENCE

PureLogics - Senior Software Engineer | Oct 2023 - Present | Remote (Lahore, Pakistan)

Integrated LLM APIs (Anthropic Claude) and MCP tooling into production workflows, building LLM-powered features with RAG and multi-agent AI workflows on the Node.js / React stack.

- Build full-stack web apps (React, Next.js, Vue, Node.js, Express) end to end, from schema and API design through CI/CD and AWS deployment.
- Build REST and GraphQL APIs in Node.js / Express with PostgreSQL and MongoDB: auth, payments, webhooks and integrations (Stripe, Twilio, SendGrid, HubSpot).
- Delivered 10+ large-scale products for international (mostly US-based) clients, serving 15,000+ users.
- Run Claude Code subagents that collaborate and hand off work as a coordinated team on complex features.
- Mentored 5-10 junior engineers from onboarding to independent feature delivery through code reviews and pairing.

PureLogics - Software Engineer | Jul 2022 - Oct 2023 | Lahore, Pakistan
