SUMMARY

Senior Frontend Engineer with 6+ years building responsive, high-performance web applications for international clients and distributed teams. Expert in React.js, Vue.js, Next.js, Nuxt.js, and TypeScript, with a focus on clean, maintainable code, modern UI/UX, and scalable frontend architecture. Experienced leading teams, mentoring engineers, and collaborating asynchronously across time zones to deliver measurable impact.

CORE SKILLS

Languages: JavaScript, TypeScript, Python, HTML5, CSS3, SCSS

Frameworks & Libraries: React.js, Next.js, Vue.js, Nuxt.js, React Query, Material UI

Backend: Node.js, Express.js, NestJS, Python

Databases & Testing: MongoDB, Prisma ORM, Zod, Yup, Jest, React Testing Library, Postman, Swagger

Tooling & Practices: Webpack, Babel, Git, Responsive Design, Accessibility, Performance Optimization, UI/UX, Code Review

Integrations: Meta Graph API, Google Calendar API, Zoom, Microsoft Teams, Web Speech API, Stripe, Twilio, SendGrid, HubSpot

Also familiar with: Three.js, Framer Motion, NLP tooling, Generative AI (AWS), MCP (Anthropic), Agent Skills, Anthropic API

EXPERIENCE

Senior Software Engineer — Frontend Lead

07/2022 – Present

PureLogics

- Promoted to Senior Software Engineer, leading frontend development across 3+ scalable web applications for international clients.
- Architected and shipped responsive interfaces in React.js and Vue.js, improving Lighthouse performance scores by 25% and reducing page load times by 30% via code splitting, lazy loading, and reusable component architecture.
- Mentored a team of 10+ engineers through code reviews and frontend best practices, cutting review turnaround time by 30% and improving code quality and delivery consistency.
- Drove architectural and technical decisions across TypeScript, Node.js, Express.js, and MongoDB, aligning solutions with business objectives while collaborating asynchronously with distributed teams.

Software Engineer

02/2022 – 07/2022

TechOrix

- Built responsive, high-performance web applications in React.js and Next.js with consistent cross-device experiences.
- Implemented accessible, multilingual interfaces with strong attention to UI/UX and performance optimization for cross-functional teams.

Freelance Frontend Developer

10/2021 – 01/2022

Upwork

- Delivered frontend development across 20+ projects for international clients, building responsive interfaces to high code-quality standards.

Associate Software Engineer

07/2020 – 09/2021

LogicsDrive

- Developed polished, responsive user interfaces with React.js, Vue.js, jQuery, and SCSS while maintaining high code-quality standards.

Associate Software Engineer

02/2020 – 07/2020

Tetralogix

- Built responsive, scalable interfaces with JavaScript, jQuery, and Liquid that integrated cleanly with backend systems.

Intern — Web Development

09/2019 – 02/2020

NexTash

- Contributed to website development and company-profile management, strengthening core web development skills.

SELECTED PROJECTS

- **Sliced Health** — Led frontend for healthcare dashboards and analytics workflows in React.js, TypeScript, React Query, and Material UI; improved frontend performance by 25% for 20+ team members.
- **SES-DLC Website & Web App** — Built full-stack web apps with responsive UIs, API integrations, authentication, and reusable components using React.js, Vue.js, Node.js, Express.js, TypeScript, and MongoDB; cut development time by 30%.
- **Melbourne City Limo** — Developed a full-stack booking platform with responsive booking flows, form validation, and REST API integrations using React.js, Node.js, Express.js, and MongoDB.
- **Open Source** — Created reusable React.js and Vue.js boilerplates with TypeScript, Vite, ESLint, routing, and state management; cut project setup time by ~40%.

CERTIFICATIONS

JavaScript (2023) | JavaScript – Intermediate (2023) | Problem Solving (2023)

EDUCATION

BS, Computer Science

2018 – 2022

Virtual University of Pakistan

Languages: Urdu (Native) | English (Fluent)
